<u>JERICO-S3 MILESTONE</u> Joint European Research Infrastructure network for Coastal Observatory Science, Services, Sustainability	
Milestones title	Presentation of PSS progress at ARW#2
Work Package Title	WP4
Milestones number	MS20
Description	<p>This Workshop provided a forum to disseminate PSS Actions to other JERICO-S3 WPs and partners. It summarizes the main outcomes of the Actions during the first 8-month period of PSS implementation. Workshop continued with short communications from other WPs to provide feedback to PSSs, either by commenting on their developments so far, providing questions on their implementation, providing demonstrations of already existing PSS-WP interactions and requesting for further collaborations with various WPs. Originally the Workshop was planned for spring 2021 (M13), but due to delay of PSS implementation, it was also delayed.</p>

JERICO-S3 WP4

PSS Progress meeting

Tuesday 21 September 2021 / 9:00 - 12:00

1. *Scope of the workshop:*

JERICO-S3 WP4 provides a proof of concept for coastal Supersites, to study how the coastal observations are best integrated, for provision of sustained multidisciplinary observations. Practical demonstration is carried out by implementing a study period of Pilot Supersites during 2021-22.

Pilot Supersites are implemented at four regions (Baltic Sea, Northwest Mediterranean, North Sea and English Channel and Cretan Sea), with specific Actions identified for each PSS. These Actions are interlinked studies, each with coordinated partnership, objectives and description of activities. PSS Actions have various links and connections to other JERICO-S3 WPs and to other regional initiatives and environmental Research Infrastructures. Description of PSS work can be found at www.jerico-ri.eu/download/jerico-s3_deliverables/JERICO-S3_DELIVERABLE_4.1_V2-FINAL.pdf

This Workshop will provide a forum to disseminate PSS Actions to other JERICO-S3 WPs and partners. It summarizes the main outcomes of the Actions during the first 8-month period of PSS implementation. Workshop continues with short communications from other WPs to provide feedback to PSSs, either by commenting on their developments so far, providing questions on their implementation, providing demonstrations of already existing PSS-WP interactions and requesting for further collaborations with various WPs.

2. *Expected outcomes:*

- Increase the awareness within partnership on the status of PSS implementation.

- Provide a forum for feedback to PSSs from various WPs.
- Facilitate further actions for topical interactions between WPs and PSSs
- Feedback from WPs and community will be used when refining PSS implementation plan in Deliverable 4.2 in late 2021
- Workshop will be summarised in a Milestone report MS20, "Presentation of PSS progress at ARW#2" as the start of PSS was delayed and ARW#2 did not have a specific session to present PSS progress.

3. **Targeted audience:**

- PSS leads and all PSS partners
- Other WP and task leads
- All interested JERICO-S3 partners

No external experts will be invited for this meeting, as the discussions are mainly expected to guide internal between-WP collaborations.
